# USER OPTICAL SOCKET (OTO)
## PLESIO – DIN

This user optic socket has been developed to allow the connection of the individual home apartments to the FTTH fiber optic network. Small and aesthetically pleasing, the termination inside the box can accommodate up to 2pcs 900 µm pigtail with SC/APC (or LC/APC) connector that can be spliced to the optical cable, or with fast SC/APC (or LC/APC) mechanical connector.
